

# Website Revamp Plan for [www.metrovtelugu.com](http://www.metrovtelugu.com)

## Website Structure (6 Pages)

**Home | Live TV | News Hub | Gallery & Shorts | About | Contact Us**

### 1. Home Page

- Hero Section: Daily featured video (latest news/episode/interview).
- Breaking Ticker: Scrolling text bar with top headlines (auto-update style).
- Category Highlights: Politics, Entertainment, Lifestyle, Special Stories.
- Mini-Carousel: Trending 3–4 videos for the day.
- Quick Links: Watch Live, Latest Uploads, Social handles.

#### Image Suggestions:

- Bold banner using Metro Logo colours.
- Thumbnail-style video previews.
- Live-stream “TV Channel feel” design.

### 2. Live TV / Latest Videos

- Main Player: Embed live stream.
- Playlist Section: Auto-updating grid with YouTube uploads.
- Category Filter: By News, Entertainment, Special Reports.

### 3. Categories (News Hub) - Sub-sections (hover - ↓ drop down):

- ↓ Political Updates
- ↓ Cinema & Entertainment
- ↓ Lifestyle & Trends
- ↓ Special Reports / Ground Reality

(Each section shows the latest 5–10 videos automatically)

### 4. Photo Gallery & Shorts

- Daily photo updates (events, behind-the-scenes, social media trending pics).
- Instagram-style shorts/reels embedded.

#### Image Suggestions:

- Mosaic-style gallery.
- Smartphone screen mockups with reels look.

## 5. About & Contact Page

- About Metro TV Telugu (mission, editorial team, tagline).
- Contact form for press, advertise with us, and collaborations.
- Social media links.

## Style & Features (Unique + Realistic + Daily Updates)

### 1. Design Style:

- Subtle theme with Telugu culture with colours picked from Metro Logo.
- Energetic, news-channel feel but clean and modern.
- Mix of grid + carousel for videos.

### 2. Daily Update Mechanism:

- Auto-fetch new videos from YouTube (via API).
- Auto-update photo gallery from Instagram handle.
- Breaking news ticker with easy backend input.

With just 6 pages, the site stays light, engaging, and easy to refresh daily. Most content pulls directly from YouTube and Instagram feeds, minimizing manual updates.
